SUMMARY

Motivated and detail-oriented student pursuing a B.Sc. in Computer Science and Statistics with a strong foundation in programming, data structures, and problem-solving. Actively engaged in coding communities and passionate about developing efficient software solutions. Dedicated to continuous learning, collaboration, and contributing to impactful projects.

PROJECTS

Task Manager Web App

- Designed and developed a task management tool using **HTML, CSS, and JavaScript**, enabling users to add, update, and delete tasks seamlessly.
- Implemented data persistence using local storage and responsive UI for cross-device accessibility.

Portfolio Website

- Built a fully responsive personal portfolio using **HTML and CSS** with both light and dark themes for enhanced user experience.
- Integrated downloadable resume, social media icons, smooth scrolling, hover animations, and a contact form for professional outreach.

GenuAI Browser Extension

- Developed a browser extension that captures selected screen text and interacts with an API to verify content authenticity.
- Focused on clean UI/UX, efficient API integration, and enhanced usability for content validation tasks.

ACHIEVEMENTS

- Ranked in the **Top 5** in a State-level Hackathon; recognized for innovative problem-solving and teamwork.
- Earned multiple **certifications of participation** in competitive coding and technical events, showcasing consistency and growth.

TECHNICAL SKILLS

- Programming Languages:** C++, HTML, CSS, JavaScript, SQL
- Development Tools & Platforms:** Git, GitHub, VS Code, Linux
- Technical Strengths:** Data Structures and Algorithms, Problem-Solving
- Collaboration:** Active engagement in coding communities, teamwork

EDUCATION

B.Sc. in Computer Science and Statistics
SGPA: 5.30

Lucknow Christian Degree College, Lucknow
Expected Graduation: [2027]
